~~I think~~ The white man's burden means that a man has to put up with things <sup>Good</sup> in his life that he doesn't want to be a part of. Like possibly in the picture he may have to take care of a bunch of people for some kind of reason → what is the reason?

- Don't use "I think," show confidence in your answer and treat it as if it is 100% correct
- Take your thoughts a step further and explain the burdens of Imperialism
